Preface

Nakshatra ... at glance is an effort just to make ready access of “Panchanga Elements” concerned favourable or adverse to the Nakshataras.

The contents are common, available in the classic literatures of Vedic Astrology. To get maximum concerned contents at a glance collectively is the motive of the compiler.

The tabular format of the contents is meant for easy access to the astrologers who are familiar and know the proper use of those contents.

Nakshatra ... at glance (Part 1) consist the basics - Pada, Sign, Navamsa, NavTara, Karaka , Deity, Lord etc and the Yoga Tara of each Nakshatra.

The work is not protected by any copyright. Any Comments and feedback would be most welcome.

~~~~~

This work Nakshatra ... at glance is dedicated to Lord Shiva,  
the great “*Vayu Tattvadhish*”.

## YogTara – Magha to Jyeshtha (10 to 18) per Surya Siddhanta

Note: Some of the YogTara are different and in different Constellations as per Modern Astronomy due to certain reasons.

**Criteria: The most significant Star should be on or nearest to the Ecliptic Belt (Moon Path) and/ or the brightest among the group.**  
**Ideal Gap between the Nakshatra is 13°20' - 1/27 of 360°**

## Application Tips (1a)

### Nakshatra Padas – Lagna and Planet's Goal (Navamsa)

| Number      | I Pada   | II Pada | III Pada | IV Pada |
|-------------|----------|---------|----------|---------|
| Tattva      | Agni     | Prithvi | Vayu     | Jala    |
| Ayana/ Goal | Dharma   | Artha   | Kama     | Moksa   |
| Varna       | Kshtriya | Vaishya | Sudra    | Brahmin |

A nice creation needs a proportionate blend of all the Tattvas, any imbalance, excess or dearth cause affliction. The manifestation of these afflictions can be seen in individual's appearance, nature, intelligence and different types of problems in life. Some times these problems are requisite of the Soul to reach at certain goal (cause of the birth). Such persons have to swim across the sea of obstructions. The Pada Tattva of these bodies helps a wise to find out the actual cause of the problem one is facing. Looking at the strength and afflictions of those planets' Tattva helps in that direction, strongest is the winner.

**Note:** Harmonious relations between the Tattvas of the Planet placed/ or Lord & Nakshatra Pada makes a planet strong.

Lagna Nakshatra Pada: Intellect level – Goal and Type of collected Intellect and its impact on personality.

Moon Nakshatra Pada: Mind level – Goal of Mind – Direction of thinking.

Sun Nakshatra Pada: Spiritual level – Goal in Spirituality – Path.

Lagnesha Nakshatra Pada: Application of Intelligence – Applying Mode – Where and How.

Extended: Atam Karka Nakshatra Pada: - Goal of the individual's soul - Cause of Birth.

Harmonious relations between the Padas of Lagna, Moon, Sun, Lagnesha and AK shows the smooth achievement of goal in an individual's life, else create conflictions. The manifestation can be determined by knowing the type of Tattva conflictions in the individual chart which can further helps to decide those obstructions can be remedied or not, presuming it is the destiny.

**Example :** Assuming Lagna in II Pada and Moon in IV Pada of Nakshatra, which are Prithvi and Jala, a perfect coordination. The person will achieve material goal smoothly by denoting himself in Vaishya Dharma with Brahmin approach (Intelligence and Thinking), subject to Tattva of the planet placed.

**Another example:** Suppose Lagna, Moon, Sun and Lagnesha all are afflicted but AK is strong. Result: Soul will give strength to fight with the problems till the Goal of the Soul (cause of the birth) is not achieved. Help to remove the afflictions may or may not be the liking of the Soul.

## Navamsa Results

What ever the Lagna Sign (D1), its Nakshatra Pada and Tattva of that Pada which decides the rising Sign and Tattva of Navamsa.

Why the result of 6<sup>th</sup> and 8<sup>th</sup> Navamsa considered bad ?

The 6<sup>th</sup> and 8<sup>th</sup> houses are the “Shadripu” and “Misery”.

The Moveable Signs (Rajas) are Vargottam (strong) in the beginning of the sign. Limited to “Self” like a child.

The Fixed Signs (Tamas) are Vargottam (strong) in the middle of the sign. Limited to “Duty” like a Youth.

The Dual Signs (Sattva) are Vargottam (strong) in the last of the sign. Limited to “Dharma” like an Old.

**Navamsa Number = Look the significance of that Number of House = Goal of Life (Achievements)**

Why 9 only? Human limit - follow the Dharma and reach the Destiny point, complete Trine. The rest of the houses (journey) is the jurisdiction of ‘Pitries’ ‘H9 to H12’ who will take across the ocean, depending how one reached H9 of Dharma.

## Afflicted NavTara – Vipat, Praytak and Vadha

In the NavTara Sequence 3<sup>rd</sup>, 5<sup>th</sup> and 7<sup>th</sup> Nakshatra are the Dwipushkar (Two Petal) and Tripushkar (Three Petal) Nakshatra of the Natural Zodiac which actually shows Tattva conflict, thus cause affliction. The impact of these Tara is so severe that the manifestation can be seen from every 3<sup>rd</sup>, 5<sup>th</sup> and 7<sup>th</sup> Tara from the birth Lagna/Sun/Moon Nakshatra (for different purposes). The Lording planets of these Taras have a strong influence in its Dasa, Nakshatra and placement. The 3<sup>rd</sup>, 5<sup>th</sup> and 7<sup>th</sup> Mahadasa from Janm is also considered afflicted.

The affliction of these Tara also considered inauspicious in Muhurata Tara Bal
